

# Seeking SLUT for CAVEMAN FANTASY

Hi.

I`m an 31 year old male who have exporied my sexuality and my sexual fantasy for many years now. I`m pretty good knowing myself and how I react and behave in sexuality and life in general.

I found this beutiful forum and talked to a lot of very nice ladyes in here. THANKS ! Your Awsome.<3

I tend to be a **VERY** sexual guy. Always loved playing around with my sexuality and espessially my very horny sex drive. Orgianaly I`m from **Columbia** and but was adoped to Norway from an early age and I have never been back. In Norway people tend not to be very open minded and especially when it comes to sex and I feel kind of sad becouse I love to explore more and find out what kind of raw sexanimal I realy am.

When I get horny and **REAL-HORNY**, I get this primal, almost *caveman-ish* sexdrive rush over me and just wanna go wild and **TAKE** whatever I want! Right then and there! I can feel it builds up throughout my whole body.... It builds up **tention**, it builds up **raw energy** and **desire** to realy conquer whatever is there for me to conquer and use for my primal, animalistic, horny-pumping sex drive and to work and forfill my dominant will!

So thats what this is all about. Digging deeper in that sexdrive and live out some of my fantasies and as I have talked to a lot of real sluts and horny girls over the years I thought, maby some sluts like my fantasy? Its kind of my deep wild fantasy that I havent told to many. Actually only one.

So here it is:

Berfore we start we will all of us, have taken psychedelic mushroom.. You decide how much you would take of course, and if you havent taken them before you should definanty not take much, but

to do this fantasy I want to explore sexuality with psychedelics because I EVERYtime I had taken em I have had more insight and almost a new little fetish I had gotten into and the openminded I had been over for not to mention the crazy horny sexdrive I get. It amazing.. And not just amazing.. **DIRTY !**
